

OPEN HOUSE

Ops A La Carte's test lab HALT and HASS Labs will be having a *FREE Open House* on September 17th from 11am to 5pm and will feature a few great presentations on Reliability Analysis and Testing. We will also have some great food and a few prizes and surprises. Come over and meet our team.

In celebration of the Olympics just ending, baseball coming to a close, and football just starting, the theme for our open house is Sports, Sports, Sports! We will have a lot of fun sports activities including a Wii contest.

Theme: *Sports*

Date: *Wednesday Sept 17th*

Time: *11:00am to 5:00pm*

Location: *HALT and HASS Labs, 990 Richard Ave, Suite 101, Santa Clara, CA*

Food/Drinks: *We will provide lunch and snacks throughout the afternoon.*

Prizes: *Door prizes / 10% off next service at Ops A La Carte.*

Grand prize is a Wii Entertainment System).

Poster Sessions: *We will have the following informative Poster Sessions with the authors*

- Software Reliability
- Warranty Cost Reduction Methodology
- Design for Six Sigma
- Semiconductor Reliability
- Secrets for Medical Packaging
- HASS Fixturing Techniques
- Using Electronic Design Automation (EDA) Tools for Parts Obsolescence
- Product Realization Network

OPEN HOUSE

About the Lab: HALT and HASS Labs is one of the oldest HALT Labs in the world. In the 14 years of this lab's operation, hundreds of customers improved the reliability of their products. In addition to our three HALT chambers, check out our two environmental chambers:

1. Electrodynamic Vibration: Single and two axis sine and random - Great for troubleshooting HALT failures and for transportation tests. Also we use as a quick and inexpensive HASS machine.
2. Temp/Humidity Chamber - Perfect for Reliability Demo Tests and Accelerated Life Tests.

Thank you for your help and support. We look forward to meeting you at our Open House. Please *rsvp* to Sandhya if you can come: sandhyan@opsalacarte.com or (408) 654-0499.
